Zhanghu Zhao

PhD Candidate in Machine Learning · Aalto University

zhanghu.zhao@aalto.fi | zhanghu-zhao.com | Google Scholar | @dralnmatthew

Education

Aalto University Jun 2026 – present
PhD, Computer Science *Espoo, Finland*
- Supervisors: Prof. Samuel Kaski (Aalto University)

Aalto University Aug 2024 – Jul 2026
MSc, Business Analytics *Espoo, Finland*
- GPA: 4.76/5, graduated with honours
- Master's thesis: *Amortized Bayesian Experimental Design with In-Context Knowledge Conditioning*

University of Helsinki Aug 2022 – Jul 2024
MSc, Computer Science *Helsinki, Finland*
- GPA: 4.68/5
- Master's thesis: *Machine and Deep Learning Methods for Automatic Identification of Atmospheric New Particle Formation*

Soochow University Sept 2017 – July 2021
BSc, Computer Science *Suzhou, China*
- GPA: 3.8/4, graduated with honours

Experience

Doctoral Researcher Jun 2026 – present
Aalto University *Espoo, Finland*
- Probabilistic Machine Learning group, affiliated with ELLIS Institute Finland
- Topic: intelligent Bayesian inference and data acquisition via amortization

Thesis Worker Sep 2025 – May 2026
Aalto University *Espoo, Finland*
- Thesis worker in the Probabilistic Machine Learning group, supervised by Prof. Samuel Kaski
- Worked on In-Context Learning and amortized Bayesian Experimental Design

Research Assistant Jun 2023 – Nov 2023
University of Helsinki *Helsinki, Finland*
- Research assistant in the Intelligent environmental monitoring and analytics group, supervised by Dr. Martha Arbayani Zaidan (Academy Research Fellow)
- Worked on machine and deep learning methods for automatic identification of atmospheric New Particle Formation

Publications

First-author and co-first-author conference papers

Zhanghu Zhao, Daolang Huang, Xinyi Wen, Samuel Kaski
NeurIPS 2026 POSTER

Scholarships and Awards

BIZ Grant for Graduating Master's Students, Aalto University School of Business 2026

Finland Scholarship Grant, Aalto University 2024
